If you need to rework your IT solution or technology, Avery Partners is your cost-effective solution. We understand that your company's requirements change. We also recognize that technology powers your progress and that the technology must be as up-to-date as possible. That is why we deliver the best talent you can depend on to get the job done effectively and efficiently.

Businesses development problems that Avery can solve.

- Technology updating to better fit strategic goals
- Desktop, Network, and IT Security implementation and support
- Implementing technology to better facilitate and enhance customer relationships

We will give you an IT strategy and help you implement it for far less than one of the large consulting firms. We have specialized consultants available in networking, storage, software development, database systems, business intelligence, ERP systems and project management.

We are experts of finding and keeping the most qualified IT consultants that deliver the results you need.

Avery Partners offers flexible contract terms. We'll assist you in every way you need us without the burden of unnecessary long-term contracts.

"We have had great success with the Avery consultants that have been recommended to our group. Avery goes above and beyond to get us the right consultants. Not many people can do that!"

-Dwight Howard, Xerox-
